Mayor

Clerk

Mark Birchenough reported on water leak at the water storage tank. It was repaired by employees of the Lewis County Highway Department. Dept of Health informed Mark that the tank needs to be inspected. He has been investigating companies to do that. Perhaps we can coincide with the Village of Copenhagen as they are having theirs done also.

Mark asked permission to attend water training session on October 5, 2011. Permission granted.

Clerk authorized to hire Village attorney to secure an easement from the Village View Farms to run a drain line from the Thoma property to a ground water catch basin along Route 410.

Mark Moshier reported he had a call from Scott Sauer regarding his sewer drainage problem. He had a study done with a video of that drain system. Mark B. reported that the video showed some collapsed orangeburg pipe that Sauer needs to replace.

Next meeting scheduled for June 14th.

Meeting adjourned at 8:45 p.m.
